

### PT Bruiser™

PT is a multi-talented monster rod. Sporting a giant, mid-mounted 468 c.i. rat motor, PT can get it on with anything, and can turn a 9-second, 155 mph, ¼ mile. Exotic hydraulics give it the snaky moves and the ability to get up and out of the way of its own duelly slicks. When this beast lays down a patch, it looks like the paint roller from hell!

### Garbarator™

This 1966 International adds new meaning to the term “hauling trash.” This old timer has been resurrected as a wheel-standing waste wanker with a blown Chevy big block 468 c.i. It’s got some hydraulic action going for it and can move when it has to. You won’t be woken up by banging cans in the morning .. this big dude will blow you out of bed from two blocks away.

### Rolling Bonz™ and Mini-Bonz™

Dearly beloved, we are gathered here today to remember the spookiest, most outrageous low rider around. Rolling Bonz is looooww and slooooww .... bajo y suavecito. But push the right buttons, and you’ll get some really intense action.

### Funnyboni in Paradise™

If you’d spent your entire life groaning around an ice cold hockey rink, crawling at 4 mph, what would you dream about? You’d dream about fast motors, fast women, and a nice warm place to enjoy them. That’s just what this lucky Zamboni is all about, with a blown big block Chevy, runs an 8-second ¼ mile and has some hot new friends!

### Sweet ChairRiot™

If you’re looking for a *FAST* recovery, this is just what the doctor ordered! Powered by a Cadillac Northstar STS dual overhead cam 32 valve, 300 HP V-8, this thing really smokes ‘em. If you live ¼ mile from the grocery store....you can get there in 8 seconds! When you hear this healthcare honcho rumbling down the corridor you KNOW the doctor is in!

### HalfFast™

This classic 1956 Chevy shorty knows a thing or two about drifting. A blown 454 spins the skins on this little honey and gives new meaning to “smoke ‘em if you got ‘em.” The always crowd-pleasing Half Fast twins pilot and co-pilot this sweet ride
